

## Joana Chilengue

1 of the 4 women  
studying at the seminary

*"It is important and urgent to have new buildings for the seminary. At the moment we don't have enough space and it is in a bad condition. This building houses the the Diocesan secretary, the parish, parish rooms, choirs who area always practicing as well as weddings and parties. This is all a great distraction from our studies. With a new centre we would have enough rooms for both men and women separately as well as houses for the teachers. As seminarians we need to not just learn about theology but also other activities that we can take with us to the people we find at our churches. If we had a separate space we could also develop other activities such as agriculture."*
